

# Electric Pallet Stacker

This electric pallet stacker is designed for efficient material handling in warehouses. Its robust mast facilitates lifting loads to significant heights, optimizing vertical storage.

## Product Overview

### Efficient Material Handling Solution

This electric pallet stacker is designed as an upgraded, high-performance solution for warehouse and industrial material handling. Built with a reinforced mast, forks, and chassis, it offers superior load-bearing capacity, rigidity, and stability compared to standard models. It features an advanced intelligent handle system that streamlines operation and maintenance, making it an ideal, budget-friendly replacement for manual or semi-electric equipment.

## Key Features

### Intelligent Handle Capabilities

- Vehicle operation status display (Up/down/forward/backward)
- Real-time working hour tracking
- Battery capacity monitoring
- Quick error detection with code display
- Visualized maintenance information

### Build Quality

Reinforced Mast, Reinforced Forks, Reinforced Chassis, High Stability

## Operational Metrics

### Performance Indicators

**1200 kg**
