

Electric Passenger Tricycle

This fully enclosed electric passenger tricycle features a compact design. It is powered by a 72V battery system and a 1260W electric motor.

Overview

Eco-Friendly Passenger Transport

This fully enclosed electric passenger tricycle provides a compact and efficient solution for urban transportation. Designed to comfortably accommodate up to 3 passengers, it combines a robust 1260W motor with a 72V battery system. Its sleek, enclosed design ensures passenger comfort and protection in various weather conditions, making it an ideal choice for short-distance transit.

Technical Specifications

Motor Power

1260 W

Motor Power

Battery Voltage: 72 V
