

Electric Power Hand Planer for Woodworking

This electric power hand planer is a versatile tool for woodworking. It features a high-speed motor for efficient material removal and a precision-adjustable planing depth for achieving desired surface finishes.

Overview

Professional Electric Hand Planer

This high-performance electric hand planer is engineered for precision woodworking and efficient material removal. Equipped with a high-speed motor, it delivers consistent results whether you are smoothing rough timber, sizing wood boards, or crafting precise joints. The ergonomic design and integrated safety features ensure operator comfort and control during intensive tasks.

Key Features

Performance Highlights

1 level

Precision Adjustment

Design Specifications

- High-speed motor for efficiency
- Precision-adjustable planing depth
- Sturdy base for stability
- Ergonomic handle for grip and control

Safety & Compliance

Safety Equipment

Integrated Blade Guard, Ergonomic Control

Application

Use Cases

- Smoothing rough surfaces
- Sizing wood components
- Creating precise joinery
