

Electric Power Mixer

The electric power mixer is a power tool designed for mixing various materials, such as paints, mortars, and adhesives. It features a robust motor, variable speed control, and a durable mixing paddle made of steel.

Product Overview

Professional Mixing Performance

This semi-professional electric power mixer is engineered for demanding tasks, including mixing paints, mortars, and adhesives. Featuring a robust motor and mechanical 2-speed gearbox, it offers the versatility needed to handle various material viscosities. Designed for endurance, the unit is capable of continuous operation for over 100 hours under load, making it a reliable choice for consistent, heavy-duty site work.
