

# Electric Powered Chain Saw with Oregon Chain

This electric chain saw is equipped with an Oregon Double Guard 91 chain. It is designed for a variety of cutting applications.

## Product Overview

### High-Performance Electric Cutting

This electric-powered chain saw is engineered for reliable performance in various cutting applications. Equipped with a high-quality Oregon Double Guard 91 chain, it ensures precision and durability for professional tasks. The robust design combines efficiency with ease of use, making it an ideal tool for demanding wood-cutting environments.

## Technical Specifications

### Color Scheme

Yellow • Black

### Power Source

Electric

### Chain Model

Oregon Double Guard 91

### Design Features

Electric Powered, Oregon Chain Equipped, Double Guard Technology
