

Electric Powered Chainsaw for Wood Cutting

This electric chainsaw is a powerful and efficient tool for cutting wood. It features a robust motor that delivers consistent performance, along with a safety lock for user protection.

Overview

High-Performance Electric Chainsaw

The Electric Chain Saw-M1L-KW03-405 is a powerful and efficient tool engineered for reliable wood cutting performance. Designed with user comfort and safety in mind, it features an ergonomic handle to reduce fatigue and an integrated safety lock to prevent accidental operation. Its robust construction and automatic oiling system ensure consistent durability and cutting efficiency, making it an excellent choice for pruning, limbing, and firewood preparation.

Technical Specifications

Model Number	M1L-KW03-405
Power Source	Electric

Features

Maintenance	Automatic Oiling System
Safety Features	Safety Lock, Ergonomic Design

Applications

Ideal For

- Pruning
- Limbing
- Cutting firewood
