

Electric Resistance Wire for Textile Machinery

High-quality electric resistance wire designed for use in textile machinery. The wire ensures reliable operation in demanding environments.

Product Overview

Industrial Electric Resistance Wire

This high-quality electric resistance wire is engineered for optimal performance in textile machinery and various industrial heating applications. Built for durability in demanding environments, the wire provides consistent thermal output and reliability. It is conveniently supplied on spools to facilitate easy handling and precise dispensing during installation.

Technical Specifications

Resistance

8.4 Ω
Resistance

Dimensions

5.5x20.7x75x4

Packaging Details

Net Weight

5.47 kgs

Gross Weight

6.12 kgs

Total Length

10 m

Certifications & Origin

Origin

Made in China
