

Electric Rice Cooker with Desugar Function

This electric rice cooker features a desugar function for healthier cooking. It has multiple modes including rice cooking, hot pot, steaming, and timed cooking, with a non-stick pot and transparent lid.

Overview

Healthy Cooking Innovation

This intelligent electric rice cooker is designed for modern, health-conscious kitchens, featuring a specialized desugar function that effectively reduces starch content through a unique boiling, filtering, and steaming process. With a generous 5L capacity and a versatile 900W power output, it handles everything from low-sugar rice to soups, porridge, and cakes. The user-friendly IMD large screen touch panel and 24-hour appointment function make it an essential, convenient tool for diverse culinary needs.
