

Electric Ride-On Floor Sweeper

This electric ride-on floor sweeper has a 1700mm cleaning width. Its automatic operation and watering system ensure efficient and dust-free cleaning.

Product Overview

High-Efficiency Electric Sweeper

The Electric Ride-On Floor Sweeper is a high-performance, three-wheeled vehicle designed for large-scale industrial and commercial cleaning. Fully electric and emission-free, it provides an eco-friendly solution for maintaining paved surfaces while ensuring a dust-free environment with its integrated watering function. With a cleaning efficiency of 97% and a cleaning speed of up to 10,200 square meters per hour, it allows a single operator to manage extensive cleaning tasks with ease.
