

Electric Rope Hoist for Industrial Lifting

This electric rope hoist is a robust lifting solution designed for industrial and commercial applications. It features a durable construction, a powerful motor, a user-friendly control system, and enhanced safety features.

Product Overview

Industrial Lifting Solution

The PXHJ203 Electric Rope Hoist is a robust lifting solution engineered for reliable performance in industrial and commercial environments. It features a powerful motor and durable construction, making it ideal for workshops, warehouses, and construction sites. With integrated safety features such as overload protection and emergency stop functionality, this hoist ensures both efficiency and operator safety during heavy lifting tasks.

Technical Specifications

Input Power

560 W

Input Power (Low)

900 W

Input Power (High)

Model	PXHJ203
Voltage/Frequency	230V/50Hz

Performance Metrics

Loading Capacity

- 125kg (Single line)
- 250kg (Double line)
- 200kg (Single line)
- 400kg (Double line)

Elevating Height

- 11m (Single line)
- 5.5m (Double line)

Logistics

Quantity per 20' Container

Configuration	Quantity (pcs)
Standard	1600
High Capacity	1140
