

# Electric Scooter Aluminum Alloy Wheel

This electric scooter wheel is made from high-quality aluminum alloy. Its robust construction features multiple spokes for enhanced durability and load-bearing capacity.

## Product Overview

### High-Performance Scooter Wheel

This electric scooter wheel is engineered from a durable aluminum alloy, designed to provide enhanced load-bearing capacity and structural integrity. Featuring a multi-spoke design, it ensures optimal handling, stability, and smooth performance for various electric scooter applications. Precision manufacturing guarantees a reliable ride for professional and recreational use.

## Technical Specifications

Material	Aluminum Alloy
Wheel Dimensions	12 x 1.5
Bearing Hole Diameter	30 mm

## Model Compatibility

### Available Variants

Product Code	Wheel Size	Wheel Axle Size	Bearing Hole ( )
12015001	12x1.5	59	30
12015003	12x1.5	63	30
12015006	12x1.5	63	30
12015007	12x1.5	63	30
