

Electric Scooter with EEC EURO5 COC Certification

This electric scooter is certified with EEC EURO5 and COC standards. It has a 1500W motor and a 60V 20Ah lead-acid battery.

ADDITIONAL IMAGES

Overview

Compact and efficient design optimized for city commuting.

Urban Mobility Solution

This electric scooter is engineered for efficient urban commuting, fully compliant with EEC EURO5 standards and featuring COC certification for simplified registration. It offers a reliable 45km/h top speed powered by a 1500W motor, making it an ideal choice for daily city travel. Designed with safety and practicality in mind, it combines modern aesthetics with a robust build capable of handling a 150kg load.

Performance

Maximum Speed	45 km/h
Motor Power	1500 W
Range Distance	50-60km
Slope Capability	10 °

Battery & Charging

Battery Capacity	60V 20Ah Lead-acid
Charger Output	60V 3A
Full Charge Time	6-8 Hours

Physical Dimensions

Ergonomic seating designed for rider comfort.

Dimensions	1660 x 690 x 1060 mm
Wheel Base	1300 mm
Weight (with battery)	99 kg
Maximum Loading Weight	150 kg

Technical Features

Modern aesthetic with integrated lighting systems.

Safety-focused rear lighting and durable braking system.

Certifications	EEC, EURO5, COC, L1e-B
Brake Mode	Front Disc, Rear Drum
Tyre Specification	3.0-10
