

Electric Sheet Sander

This electric sheet sander is designed for sanding surfaces. It features a rectangular sanding pad, variable speed control, and a dust collection system.

Overview

Professional Electric Sheet Sander

This versatile electric sheet sander is engineered for efficient material removal and surface preparation on wood, metal, and plastic. Featuring a powerful 300W motor and variable speed control, it provides the precision needed for consistent finishing tasks. Its ergonomic design and integrated dust collection system ensure a cleaner, more comfortable working experience for professional operators.

Technical Specifications

Performance Metrics

300 W

Input Power

12000 opm

Max Speed

Voltage & Frequency	230V~50Hz, 120V~60Hz
Sanding Pad Size	115 x 230 mm
No-load Speed Range	6000 - 12000 /min

Features

Key Features

- Variable speed control dial
- Integrated dust collection system
- Clear dust container
- Ergonomic comfortable grip
- Continuous operation power cord

Suitable Materials

Wood • Metal • Plastic
