Overview

Efficient Footwear Care

The JBB-GX101 is a compact and efficient electric shoe dryer designed to maintain footwear hygiene and extend the lifespan of your shoes. Utilizing gentle, constant temperature control and optimized airflow, this device effectively removes moisture, eliminates odors, and provides sterilization. It features a durable, high-temperature resistant PP plastic construction with built-in safety mechanisms, making it an ideal solution for home use.

Technical Specifications

Power Consumption	10 W
Operating Voltage	110V, 220V, Max 250V
IP Rating	IP20
Frequency	50/60 Hz

Design & Build

Available Colors

White • Black • Blue • Yellow

Material	High temperature resistant PP plastic
Suitable Shoe Sizes	EUR 38-42

Features

Core Functions

- Drying
- Dehumidifying
- Sterilization
- Deodorization

Drying Time

8 hours

Standard Cycle

Safety & Operation

Constant Temperature, Anti-leakage protection, Overheat protection, Automatic shut-off

Compliance

Certifications

CE • RoHS • UL
