

Electric Stacker

This electric stacker is designed for efficient lifting and transporting of goods in warehouses and factories. Its compact design allows for maneuverability in tight spaces.

Overview

Versatile Material Handling Solution

The CDD-H series electric stacker is designed for efficient and safe lifting and transporting of goods in warehouses, factories, and industrial environments. Featuring a compact, ergonomic design, it offers excellent maneuverability in tight spaces while reducing operator fatigue. With robust construction and integrated safety features like emergency stops and overload protection, this stacker is an ideal choice for optimizing material handling workflows.

Performance Metrics

Load Capacity Range

1000 kg

Standard Capacity

1300 kg

Max Capacity

Travel Speed (Loaded)

6 Km/h

Technical Dimensions

Stacking Specifications

| Model | Load Capacity (kg) | Lift Height (mm) | Aisle Width (mm) |
|--------|--------------------|------------------|------------------|
| CDD10H | 1000 | 1600 | 2280 |
| CDD10H | 1000 | 2450 | 2280 |
| CDD10H | 1000 | 2900 | 2280 |
| CDD13H | 1300 | 2500 | 2335 |

Fork Dimensions

1150 x 160 x 56 mm

Lowered Fork Height

90 mm

Turning Radius

1440 mm
