

Electric Steam Iron for Clothes

This steam iron is designed for efficient and effective wrinkle removal from various fabrics. It features a temperature control dial for selecting the appropriate heat setting for different materials, ensuring optimal results and preventing damage.

Overview

Professional Steam Iron Overview

The SIT-1020 steam iron is designed for high-efficiency garment care, offering advanced features like steam, spray, and surge functions to handle stubborn wrinkles. Equipped with a self-cleaning system and anti-calc technology, it ensures durability and consistent performance over time. The unit features an ergonomic design with a non-stick soleplate, making it an ideal choice for reliable, daily use in professional or high-volume environments.
