

Electric Steam Iron for Garment Care

This electric iron offers both dry and steam ironing options. It is equipped with a temperature control dial and a non-stick soleplate.

Overview

Professional Garment Care

This versatile electric steam iron is designed to provide efficient garment care through both dry and steam ironing capabilities. It features a high-performance non-stick soleplate that ensures smooth gliding across various fabric types while preventing damage. With an integrated temperature control dial and a convenient spray nozzle, this unit offers precise handling for a professional finish on all your textiles.
