

# Electric Steam Iron for Garment Care

This electric steam iron is designed for efficient and effective garment care. It features a transparent water reservoir, temperature control, steam nozzle, and a non-stick soleplate.

## Product Overview

### Professional Garment Care Solution

This electric steam iron is engineered for efficient garment maintenance, offering versatile settings including dry, steam, and vertical steaming. With a 1200W power output and adjustable thermostat control, it handles various fabric types with precision. The lightweight, compact design is suitable for both professional and household use, incorporating a 160ml tank and self-cleaning functionality for improved durability.

## Technical Specifications

### Power Output

**1200 W**  
Power
