

Electric Steam Iron for Garment Care

This professional grade electric steam iron is designed for efficient garment care. It features adjustable steam settings and a large capacity water tank.

Product Overview

Professional Garment Care Solution

This professional-grade electric steam iron is engineered for both efficiency and high-performance garment care. Designed with durability in mind, it features a large-capacity water tank to support extended steaming sessions without frequent refills. Its versatile design includes adjustable steam settings, making it suitable for a wide range of fabric types, while the stable base ensures safety and ease of use in both home and commercial environments.
