

Electric Steam Iron for Garment Care

This electric steam iron provides efficient garment care. It utilizes steam to effectively remove wrinkles and creases from clothing.

Product Overview

Professional Garment Care

This high-performance electric steam iron is engineered for efficient wrinkle removal and versatile garment care. With a powerful 2000-2400W output and adjustable steam delivery, it ensures professional-grade results on a variety of fabrics. The design incorporates user-friendly features like a soft-touch grip and self-cleaning capabilities for long-term reliability.

Technical Specifications

Performance Metrics

2400 W Maximum Power	300 ml Water Tank Capacity	25 g/min Steam Rate
