

Electric Step-Through Bicycle with Integrated Lighting

This electric bicycle includes a front basket and rear storage. It has a step-through frame, padded seat, rearview mirrors, integrated lighting, and pedal assist.

Overview

Versatile Electric Mobility

This electric step-through bicycle is designed for efficient urban commuting and light cargo transport. It features a convenient step-through frame for easy mounting, integrated lighting for safety, and a robust pedal-assist system to reduce rider fatigue. With added utility features like a front basket and rear storage compartment, it offers a practical solution for daily errands or delivery tasks.
