

Electric Step-Through Scooter for Personal Transport

This electric scooter is designed for personal transportation. It features a step-through frame, a padded seat, and a front handlebar for steering.

Overview

Compact Personal Transport Solution

The JC-ES019T electric scooter offers a practical and eco-friendly solution for personal mobility. Designed with a convenient step-through frame, it ensures ease of use for riders, while the 250W motor and 24V battery system provide reliable performance for daily commutes. With a maximum range of 25km and a comfortable pneumatic tire setup, this scooter is engineered for efficiency and comfort in urban environments.
