

Electric Step-Through Scooter with Pedals

This electric scooter provides a powerful and easy riding experience. It features optional colors.

Overview

Efficient Urban Commuting

This electric step-through scooter is designed for reliable urban mobility, featuring a lightweight aluminum-alloy frame and a comfortable seating position. Powered by a 350W brushless motor and a 48V battery system, it offers a practical solution for daily travel with a range of over 45km. The inclusion of pedals allows for manual propulsion, while the disc brake system ensures safety and control in various traffic conditions.
