

Electric Step-Through Scooter with Storage

This electric scooter has a step-through frame, front and rear lights, rearview mirrors, a padded seat, and a rear storage compartment. It is powered by an electric motor and features front and rear suspension for a smooth ride.

Overview

Urban Mobility Solution

This electric step-through scooter is designed for efficient and comfortable urban commuting. Featuring a robust step-through frame, it offers easy accessibility for riders, while the integrated rear storage compartment provides practical utility for daily errands. Equipped with both front and rear suspension, this scooter ensures a smooth and stable ride across typical city road conditions.
