

Electric Step-Through Scooter with Storage

This electric scooter has a red and black color scheme. It features a step-through design, front headlight, rearview mirrors, and a rear storage box.

Overview

Designed for Efficiency and Convenience

This electric step-through scooter is engineered for urban mobility, combining ease of use with practical storage solutions. The step-through frame design allows for effortless mounting and dismounting, making it ideal for frequent stops. Equipped with a dedicated rear storage box, it provides secure space for personal items or cargo, enhancing its utility for daily commuting or delivery tasks.
