

Electric Step-Through Tricycle with Cargo and Passenger Seat

This electric tricycle has a step-through frame for easy access. It features a rear passenger seat with a backrest, armrests, and a front basket for cargo.

Product Overview

Versatile Electric Mobility Solution

This electric step-through tricycle is engineered for accessibility and utility, featuring a low-frame design that ensures easy mounting and dismounting for all users. It combines efficient electric propulsion with practical cargo and passenger capabilities, making it an ideal choice for short-distance transport or delivery services. Equipped with a comfortable rear passenger seat including backrest and armrests, alongside a convenient front storage basket, this tricycle offers a balanced solution for both comfort and functionality.
