

Electric Tea Maker with Stainless Steel Kettle and Glass Teapot

This electric tea maker features a stainless steel kettle and a glass teapot with an infuser. The appliance includes a base with touch controls and a sleek, modern design.

Product Overview

Premium Electric Tea Maker System

This professional-grade electric tea maker features a dual-component design with a 1.7L stainless steel kettle and a 1.2L glass teapot. Engineered for efficiency and durability, it utilizes high-quality SUS304 stainless steel for health-conscious brewing. The integrated keep-warm function, adjustable via a precision PCB board, ensures your tea remains at the perfect temperature for extended periods.
