Overview

High-Precision Industrial Torque Solution

The PD2 Series Electric Torque Wrench is a robust power tool engineered for controlled tightening and loosening of fasteners in demanding environments. Designed for efficiency, it combines a high-torque electric motor with adjustable settings to ensure precise application and prevent over-tightening. This tool is ideal for construction, manufacturing, and maintenance applications where consistent, high-accuracy fastening is critical.

Technical Specifications

Controllable Torque Range

1200 N.m
Min Torque

2500 N.m
Max Torque

Model Number	PD2-25T
Max Power Consumption	1900 W
Operating Voltage	220 V
Standard Sleeve Size	55TR

Key Features

Performance Highlights	Low Noise, High Precision, Adjustable Torque, Industrial Grade
