

Electric Turbine Spray Gun

This electric spray gun is designed for coating applications. It features a high-efficiency turbine motor for consistent spray performance and includes an adjustable spray nozzle for precise control.

Overview

Professional Electric Turbine Spray Gun

The SG1200 is a professional-grade electric spray gun engineered for consistent and high-efficiency coating applications. Featuring a powerful turbine motor, this unit offers reliable performance for a variety of tasks. Its design includes an adjustable nozzle for precise control over material flow and spray patterns, making it a versatile solution for professional and demanding DIY projects.

Technical Specifications

Input Power	1200 W
Max Output	1100 ml/min
Container Capacity	1200 ml

Electrical Requirements

Voltage/Frequency

- 230V~50Hz
- 120V~60Hz

Key Features

Performance Highlights

1200 W Power Output	1100 ml/min Max Spray Rate
