

# Electric Water Kettle

This electric kettle rapidly boils water for tea, coffee, and other hot beverages. It includes safety features such as automatic shut-off and boil-dry protection.

## ADDITIONAL IMAGES

## Product Overview

### Modern Electric Kettle

This modern electric kettle is engineered for efficiency and safety, featuring a rapid boiling system that saves both time and energy. Designed with a 360-degree rotational base for ease of use, it combines a durable 304 stainless steel interior with a sleek, high-quality exterior. Advanced safety features, including automatic steam induction shut-off and boil-dry protection, ensure a worry-free user experience for professional or home environments.

## Performance & Technical

### Power Rating

**1500 W**

Power Output

### Capacity

1.7 L

### Voltage

120V AC

## Construction & Materials

### Design Features

- 360-degree rotational base
- Concealed heating element
- Ergonomic handle
- Precision drip-free spout

### Body Materials

304 Stainless Steel, Food-grade Material, Plastic

## Safety & Control

### Safety Features

Automatic Shut-off • Boil-dry Protection • Steam Induction Control
