

Electric Water Pump for Fluid Transfer

This high-performance electric water pump is designed for various applications. It features a robust construction for durability and long-lasting performance.

Product Overview

High-Performance Fluid Transfer

This high-performance electric water pump is engineered for efficient fluid transfer and pressure boosting across a variety of environments. Its robust construction ensures durability and long-lasting performance, making it an ideal solution for demanding tasks. Equipped with a powerful motor and a reliable pumping mechanism, this unit delivers consistent and effective operation for professional use.

Technical Details

Series Identifier

Blue Series

Suitable Applications

Domestic, Agricultural, Industrial

Construction

Robust heavy-duty design
