Technical Specifications

Motor

brushless geared hub motor for power supply. Brushless motor has high reliability, good stability and strong adaptability, simple maintenance and maintenance. Strong power, continuous output.

Battery

High quality lithium battery. Technology giving you the best performance possible. High quality batteries are designed to deliver the most reliable and long lasting power.

Technical Details

Feature	Specification
Motor Type	36V 350W Brushless Geared Hub Motor
Battery Options	36V Lithium (8.8Ah / 10.4Ah / 11.6Ah / 14.0Ah)
Controller	36V 17A Intelligent Controller (6 Mosfets)
Brake System	Disc Brake and Hand Brake
Tire Brand	INNOVA 12" x 1.75
Throttle	Half-twist throttle

Smart Features

Adjustable button

Adjustable button is help you to adjust the handcycle to your suitable place.

LCD007 display

LCD display looks fashionable and have more functions with USB charging port. Set relevant parameters, like rim size, speed limited, password... When you cycling, it also can tell you the speed, time, range, temperature...

Intelligent Interface

- LCD display with USB charging port
- Real-time speed and time monitoring
- Trip range and temperature tracking
- Programmable parameters (rim size, speed limit, password)
- Front LED headlight with integrated horn

Physical Attributes

Frame Material	Aluminum alloy
Gross Weight	18 kg
Packing Size	70 x 38 x 23 cm

Usage Capabilities

Terrain Compatibility	Grass, Gravel, Potholes, Indoor, Outdoor
