Overview

Eliminate long decanting wait times with instant aeration technology.

Versatile design suitable for home, bar, and dining environments.

Instant Wine Aeration

This portable electric wine aerator and dispenser pump is designed to instantly enhance the flavor and aroma of your wine. By utilizing advanced electric pumping technology, it provides 6x more surface area oxidation, eliminating the need for traditional 30-120 minute decanting periods. It is compatible with most standard wine bottle sizes and features a simple, one-button operation for effortless serving.
