

Electric Wire Rope Hoist 200/400 kg Capacity

This electric hoist is designed for lifting applications, with a maximum capacity of 200/400 kg depending on the configuration. It is suitable for use in workshops, garages, and construction sites, and includes a wired remote control for easy operation.

Overview

Professional Electric Wire Rope Hoist

This electric wire rope hoist is a robust lifting solution designed for versatility in workshops, garages, and construction sites. It offers dual-configuration lifting capabilities, supporting 200kg on a single line or up to 400kg on a double line. Engineered for reliability and safety, it includes essential features like a limit switch and overload protection, making it an ideal tool for demanding lifting tasks.
