

Electric Wire Rope Hoist 250/500kg

This electric hoist is designed for lifting applications in industrial and construction environments. It is equipped with a remote control for easy operation and precise load handling, and it can lift weights up to 250/500 kg.

Product Overview

Professional Electric Wire Rope Hoist

This versatile electric wire rope hoist is engineered for demanding lifting applications in industrial and construction environments. With a dual-capacity design, it offers flexibility for various load requirements, supporting up to 250kg on a single line or 500kg on a double line. The robust 760W motor and durable steel cable construction ensure reliable performance and precise load handling for your daily operations.
