Product Overview

Versatile Electric Hoist Solution

The KCD type electric wire rope hoist is a robust lifting solution designed for both ground and aerial applications. Engineered for reliability, it excels in construction, warehousing, and industrial environments, offering high lifting heights and stable operation. Whether for residential building projects, material handling in workshops, or general loading and unloading tasks, this unit provides the essential power and durability required for professional lifting needs.

Technical Specifications

Available Capacities

- 300/600kg
- 500/1000kg

Voltage

220V

Key Features

Steel Cable, Remote Control, High Lifting Height, Robust Motor

Applications

Common Usage Areas

Construction Sites • Warehouses • Workshops • Residential Building • Loading & Unloading
