

Electric Wire Rope Hoist

This electric hoist is a versatile lifting solution suitable for various applications. It features a robust motor for reliable performance, durable construction, and a user-friendly control pendant.

Overview

Versatile Electric Lifting Solution

This electric wire rope hoist is designed for reliable and efficient lifting in workshops, garages, and construction environments. It features a robust motor and essential safety mechanisms including an upper limit device and thermal protection. The unit offers flexible operation modes with both single and double hook configurations to suit various load requirements.

Performance Metrics

Lifting Capabilities

300 kg

Max Capacity (Double-line)

12 m

Max Height (Single-line)

10 m/min

Max Speed (Single-line)

Operation Modes

Mode	Capacity	Height	Speed
Single Hook	150kg	12m	10m/min
Double Hook	300kg	6m	5m/min

Technical Specifications

Protection Class

IP54

Power Requirements

120V ~ 60Hz

Input Power

660 W

Safety Features

Upper limit device, Thermal protection terminal

Logistics

Net Weight

15 kg

Packing Dimensions

42.5 x 28.5 x 28.5 cm

Trade Information

FOB Ports

- Ningbo port
- Shanghai port

Minimum Order Quantity

400 - 499 pcs

Lead Time

30 to 50 days

Payment Terms

L/C at sight, T/T
