

Electric Wire Rope Hoist - European ND Type

This electric wire rope hoist is designed for demanding industrial applications. Its compact and modular design provides exceptional lifting capacity and reliability.

Product Overview

Advanced European Lifting Technology

The European ND Type electric wire rope hoist is engineered with advanced design technology compliant with FEM standards. Its compact C-design structure maximizes lifting height and minimizes plant space usage, making it an ideal solution for diverse industrial environments. Built for durability and efficiency, this hoist features a modular design for easier maintenance and superior load control.

Performance Specifications

Lifting Capacity

1 ton

Min Capacity

80 ton

Max Capacity

Working Class

M5, M6

Design & Construction

Key Design Features

- Modular design (motor, drum, reducer)
- Compact C-design structure
- Side-mounted three-stage helical gear box
- Synchronous driving wheels

Maintenance

Maintenance-free design

Applications

Suitable Environments

Factory, Warehouse, Stockyard, Manufacturing, Metallurgy, Petroleum, Petrochemicals, Ports, Railway, Power Station, Food Industry, Paper Making, Building Material
