Product Overview

Industrial Lifting Solution

The CD1/MD1 electric wire rope hoist is a versatile, high-performance lifting device engineered for demanding industrial and construction environments. Built with a robust steel wire rope and a precision gear system, it ensures reliable operation, smooth performance, and efficient load handling. Designed for safety and longevity, it incorporates essential protection mechanisms such as overload safeguards and emergency stops to secure both the operator and the equipment.

Technical Specifications

Suitable Environments

- Factories
- Warehouses
- Construction Sites
- Indoor and Outdoor

Design Highlights

Compact Design • Easy Installation • High-Strength Steel Rope

Lifting Mechanism

Electric wire rope hoist with precision gearbox

Safety Features

Overload Protection, Emergency Stop
