

Electric Wood Router

This electric router is a versatile power tool designed for woodworking applications. It features a robust motor for efficient material removal and precise cutting.

Product Overview

Professional Electric Wood Router

This versatile electric router is engineered for high-performance woodworking applications, featuring a robust 1600W motor for efficient material removal and precise cutting. Designed with user comfort in mind, it includes an ergonomic handle to reduce fatigue during extended use and variable speed controls to adapt to various materials. With a clear base for enhanced visibility and a spindle lock for quick bit changes, it is an ideal tool for professional joinery and intricate woodworking projects.

Technical Specifications

Input Power

1600 W

Power

No Load Speed	8000-30000 min ⁻¹
Collet Capacity	12 mm

Electrical Requirements

Rated Voltage	230V-240V
Frequency	50 Hz

Physical Dimensions

Net Weight	4.5 kg
Packing Size	29.5 x 14.5 x 25.5 cm

Features

Key Features	Variable Speed Control, Spindle Lock, Clear Base, Ergonomic Design
