Product Overview

Professional Electric Yogurt and Rice Wine Maker

This elegant appliance offers a sophisticated solution for homemade fermentation, featuring precise microcomputer-controlled programs. It utilizes a stereoscopic thermostatic heating system to maintain a stable 39°C environment, ensuring consistent quality for both yogurt and rice wine. The set includes a convenient 1L jar and four individual glass cups, making it perfect for preparing multiple servings with ease.

Technical Specifications

Power Consumption	20 W
Operating Voltage	110-120V, 220-240V
