

Electric Yogurt Maker with Individual Cups

This electric yogurt maker creates fresh yogurt at home. It comes with six individual cups and operates at 220V-240V 50Hz 20W.

Product Overview

Professional Electric Yogurt Maker

The YMX-503 is an elegant and efficient solution for artisanal yogurt production. Featuring a unique internal structure, it ensures equal heat transmission to maintain the activation of healthy lactobacillus throughout the fermentation process. Its transparent top cover allows for constant observation, while the PTC heating element ensures a safe and steady temperature for consistent results.

Technical Specifications

Model Number	YMX-503
Power Input	20 W
Voltage/Frequency	220V-240V 50Hz

Capacity and Design

Total Capacity

1000 ml

Total Capacity

Individual Serving Cups	6
