Product Overview

Industrial Electrical Distribution Solution

This electrical distribution box is engineered for robust performance in demanding environments, including industrial sites, factories, and outdoor applications. Designed with a focus on safety and durability, it features heavy-duty construction to protect internal electrical components from environmental hazards. Its versatile design allows for efficient cable management and reliable power distribution for various professional systems.

Technical Specifications

Protection Rating

IP66 • IP55

Certifications

CE

Model Number

K9255

Design & Construction

Installation Features

- Multiple cable entry knockouts
- Internal grid structure for component mounting
- Square-shaped housing

Material

Industrial-grade plastic

Applications

Ideal Environments

- Construction sites
- Industrial factories
- Outdoor events
- General electrical installations
