Overview

Professional Electrical Isolation

The R7 series isolating switch is engineered for reliable distribution and control in AC 50Hz or 60Hz circuits. Designed for versatility, it serves as a robust main switch for terminal electrical appliances and is capable of controlling motors, lighting, and low-power devices. It is an essential component for industrial, commercial, and residential electrical systems.

Technical Specifications

Available Current Ratings

- 100
- 125

Performance Highlights

50 Hz

Frequency

60 Hz

Frequency

Rated Working Voltage

240/415V AC

Compliance Standards

IEC 60947-3, CE
