Product Overview

Professional Grade EMT 90 Degree Elbow

This 90-degree EMT elbow is engineered for reliable electrical conduit routing in commercial, industrial, and residential settings. Manufactured from durable steel with a galvanized finish, it provides essential corrosion resistance for both indoor and outdoor applications. Its large radius design ensures smooth wire pulling, while full compliance with UL, CSA, and ANSI standards guarantees safety and compatibility.

Technical Specifications

UL File Number

E476073

Material

Steel

Finish

Galvanized

Bend Angle

90 Degree, 45 Degree, 20.5 Degree

Standards Compliance

UL 797, CSA C22.2 NO.83.1, ANSI C80.3
