

Electrician's Wire Stripping Knife

This electrician's knife is designed with a straight blade for stripping and cutting wires. It features a durable handle for a secure grip and a blade made from high-quality steel for lasting sharpness and corrosion resistance.

Product Overview

Professional Electrician's Knife

This versatile electrician's knife is engineered for precision and durability in demanding work environments. Featuring a high-quality stainless steel blade, it is optimized for efficient wire stripping and cutting tasks. The ergonomic soft-touch TPR grip ensures comfort and control during extended use, while the integrated wire opener adds practical functionality for professional applications.

Technical Specifications

Blade Material	Stainless Steel
Handle Material	TPR (Thermoplastic Rubber)
Grip Construction	Over-molding technology

Features

Core Functionalities

- Wire stripping capability
- Integrated wire opener
- Precision cutting
- Ergonomic soft-touch handle

Ideal For	Professional Electricians, DIY Enthusiasts, Wire Preparation
