

Electricity Meter

This meter accurately measures electrical energy consumption. It provides real-time data for monitoring and billing.

Overview

Precision Gas Measurement

The Diaphragm Gas Meter G1.6 is a precision instrument designed for accurately measuring the volume of natural gas or other gaseous fuels consumed in residential or commercial settings. Featuring a robust diaphragm mechanism, this meter ensures reliable and consistent measurement over a wide range of flow rates. Its compact design and durable construction make it suitable for both indoor and outdoor installations, providing a dependable solution for gas measurement applications.

Technical Specifications

Model	G1.6
Maximum Pressure	16 kPa
Flow Rate per Revolution	1000 L/rev
Manufacturing Date	June 1, 2022

Features

Application

Residential • Commercial

Suitable Installation

Indoor, Outdoor
