

Electronic Amplifier Cooling Fan

This cooling fan is designed for amplifiers and electronic devices. It provides efficient heat dissipation to maintain optimal operating temperatures and prevent overheating.

Product Overview

High-Performance Cooling Solution

This cooling fan is specifically engineered for amplifiers and sensitive electronic components, ensuring reliable heat dissipation to maintain optimal operating temperatures. Its durable construction is designed for long-lasting performance, preventing overheating in critical systems. Suitable for a wide range of applications, including audio amplifiers, power supplies, and computer systems, this fan provides an effective solution for thermal management.

Technical Specifications

Available Dimensions

- 80 x 80 x 32 mm
- 70 x 70 x 25 mm

Key Performance Features

Efficient Heat Dissipation • Durable Construction • Quiet Operation • Easy Installation

Primary Applications

Audio Amplifiers, Power Supplies, Computer Systems, Electronic Components
