

Electronic Pliers with Hardened Cutting Edges

These pliers are designed for electronics work. They feature induction hardened cutting edges and a comfortable two-color TPR grip.

Product Overview

Professional Electronic Pliers

These professional-grade electronic pliers are engineered for high-precision tasks. Featuring induction-hardened cutting edges, they deliver ultimate performance and durability for demanding applications. The design includes flat cutting edges specifically optimized for close-cutting requirements, ensuring clean and accurate results every time.

Design & Ergonomics

Handle Material	Two-color TPR (Thermoplastic Rubber)
Head Finish	Polished

Performance Features

Key Benefits

- Professional-grade performance
- Induction hardened for longevity
- Flat cutting edges for close work
- Ergonomic TPR grip for comfort

Cutting Edge Type	Induction Hardened, Flat Profile
