Product Overview

Precision Diamond Sanding Solutions

These electroplated diamond flexible sanding belts are engineered for high-precision grinding and polishing tasks. Featuring a durable backing material coated with high-quality diamond particles, they ensure consistent performance and an extended operational lifespan. Their flexible design allows for excellent conformity to contoured surfaces, making them an ideal choice for achieving smooth, even finishes on a wide range of industrial materials.

Technical Specifications

Compatible Materials

- Metals
- Ceramics
- Composites

Key Features

Flexible Backing • Electroplated Diamond Coating • High Material Removal Rate • Precision Finishing

Grit Options

240
